Alphabetical Table of Contents of Titles

Accounting for Mode of Speciation Increases Power and Realism of Tests of Phylogenetic Asymmetry. Kai M. A. Chan and Brian R. Moore, 332.

The Adaptive Dynamics of Consumer Choice. Peter A. Abrams, 83.

Allometry of Constitutive Defense: A Model and a Comparative Test with Tree Bark and Fire Regime. James F. Jackson, Dean C. Adams, and Ursula B. Jackson, 614.

Balanced Polymorphisms and the Evolution of Dominance. Sarah P. Otto and Denis Bourguet, 561.

Chick Begging Strategies in Relation to Brood Hierarchies and Hatching Asynchrony. Peter A. Cotton, Jonathan Wright, and Alex Kacelnik, 412.

Coevolution and Escalation: Are Ongoing Coevolutionary Meanderings Important? John N. Thompson, S92.

A Comment on In-Group/Out-Group Comparisons for Fluctuating Asymmetry Based on Trait Values from the Left or Right Sides of an Individual. Ary A. Hoffmann, Richard E. Woods, and Geoffrey M. Clarke, 140.

Corridor Use Predicted from Behaviors at Habitat Boundaries. Nick M. Haddad, 215.

The Cost of Compensation. Andrew M. Simons and Mark O. Johnston, 683.

Demographic Stochasticity and Social Mating System in the Process of Extinction of Small Populations: The Case of Passerines Introduced to New Zealand. Stéphane Legendre, Jean Clobert, Anders P. Møller, and Gabriele Sorci, 449.

Developmental Stability Is Related to Fitness. Anders Pape Møller, 556.

Diversity in Relation to Body Size in Mammals: A Comparative Study. Tariq Gardezi and Jack da Silva, 110.

Does Body Size Optimization Result in Skewed Body Size Distribution on a Logarithmic Scale?Pavel Kindlmann, Anthony F. G. Dixon, and Iva Dostálková, 445.

Does Host Self-Regulation Increase the Likelihood of Insect-Pathogen Population Cycles? M. B. Bonsall, H. C. J. Godfray, C. J. Briggs, and M. P. Hassell, 228.

Effect of Prey Heterogeneity on the Response of a Model Food Chain to Resource Enrichment. Brendan J. M. Bohannan and Richard E. Lenski, 73.

The Effects of Selection and Bottlenecks on Male Mating Success in Peripheral Isolates. Arne Ø. Mooers, Howard D. Rundle, and Michael C. Whitlock, 437.

El Niño–Southern Oscillation–Driven Rainfall Variability and Delayed Density Dependence Cause Rodent Outbreaks in Western South America: Linking Demography and Population Dynamics. Mauricio Lima, Juan E. Keymer, and Fabian M. Jaksic, 476.

Erratum. Michael E. Hochberg and Minus van Baalen, 143.. Emília P. Martins and Thomas F. Hansen, 448.

The Evolution of Costly Resistance in Host-Parasite Systems. Michael Boots and Yoshihiro Haraguchi, 359.

The Evolution of Mating Preferences and Major Histocompatibility Complex Genes. Dustin J. Penn and Wayne K. Potts, 145.

The Evolution of Search Modes: Ecological versus Phylogenetic Perspectives. Gad Perry, 98.

Exploring Cost Constraints on Stem Elongation in Plants Using Phenotypic Manipulation. Donald F. Cipollini and Jack C. Schultz, 236.

Foraging in a Hierarchical Patch System. Per Fauchald, 603.

Geographic Patterns in the Evolution of Resistance and Virulence in *Drosophila* and Its Parasitoids. A. R. Kraaijeveld and H. C. J. Godfray, S61.

How Do Grazers Achieve Their Distribution? A Continuum of Models from Random Diffusion to the Ideal Free Distribution Using Biased Random Walks. K. D. Farnsworth and J. A. Beecham, 509.

How Habitat Edges Change Species Interactions. William F. Fagan, Robert Stephen Cantrell, and Chris Cosner, 165.

How to Detect a Cuckoo Egg: A Signal-Detection Theory Model for Recognition and Learning. Miguel A. Rodríguez-Gironés and Arnon Lotem, 633.

The Implications of Experimental Design for Biodiversity Manipulations. Gary W. Allison, 26.

An Improved Procedure for Testing the Effects of Key Innovations on Rate of Speciation. Jérôme Goudet, 549.

Indirect Effects in an Experimentally Staged Invasion by a Major Predator. Thomas W. Schoener and David A. Spiller, 347.

Inequality and the Directionality of History. Geerat J. Vermeij, 243.

The Influence of Plant and Herbivore Characteristics on the Interaction between Induced Resistance and Herbivore Population Dynamics. Nora Underwood, 282.

Interacting Phenotypes and the Evolutionary Process. II. Selection Resulting from Social Interactions. Jason B. Wolf, Edmund D. Brodie III, and Allen J. Moore, 254.

Interspecific Killing among Mammalian Carnivores. F. Palomares and T. M. Caro, 492.

Learning, Host Fidelity, and the Stability of Host-Parasitoid Communities. Alan Hastings and H. C. J. Godfray, 295.
Letter from the Editor. Joseph Travis, iii.
Limiting Similarity, Species Packing, and System Stability for Hierarchical Competition-Colonization Models. A. P. Kinzig, S. A. Levin, J. Dushoff, and S. Pacala, 371.

Males Feeding Females during Incubation. I. Required by Microclimate or Constrained by Nest Predation? Thomas E. Martin and Cameron K. Ghalambor, 131.
Maximum Flight Performance of Hummingbirds: Capacities, Constraints, and Trade-Offs. Peng Chai and Robert Dudley, 398.
Migration, Virulence, and the Geographic Mosaic of Adaptation by Parasites. C. M. Lively, S34.
A Minimal Model for Forest Fire Regimes. Renato Casagrandi and Sergio Rinaldi, 527.
Mutualism in Metapopulations of Legumes and Rhizobia. Matthew A. Parker, S48.

Plumage Reflectance and the Objective Assessment of Avian Sexual Dichromatism. I. C. Cuthill, A. T. D. Bennett, J. C. Partridge, and E. J. Maier, 183.
Predator Migration Decisions, the Ideal Free Distribution, and Predator-Prey Dynamics. Carlos Bernstein, Pierre Auger, and Jean Christophe Poggiale, 267.
Predicting Plant Migration Rates in a Changing World: The Role of Long-Distance Dispersal. Steven I. Higgins and David M. Richardson, 464.

Quantitative Trait Loci for Early- and Late-Developing Skull Characters in Mice: A Test of the Genetic Independence Model of Morphological Integration. Larry J. Leamy, Eric. J. Routman, and James M. Cheverud, 201.
Queen Dispersal Strategies in the Multiple-Queen Form of the Fire Ant *Solenopsis invicta*. Christopher J. DeHeer, Michael A. D. Goodisman, and Kenneth G. Ross, 660.

Reproductive Skew in Multimember Groups. R. A. Johnstone, R. Woodroffe, M. A. Cant, and J. Wright, 315.
Reptile Extinctions on Land-Bridge Islands: Life-History Attributes and Vulnerability to Extinction. Johannes Foufopoulos and Anthony R. Ives, 1.

Scale-Invariant or Scale-Dependent Behavior of the Link Density Property in Food Webs: A Matter of Sampling Effort? Louis-Félix Bersier, Paul Dixon, and George Sugihara, 676.
Seasonal Sex Ratio Trend in the European Kestrel: An Evolutionarily Stable Strategy Analysis. Ido Pen, Franz J. Weissing, and Serge Daan, 384.
The Selection Mosaic and Diversifying Coevolution between Crossbills and Lodgepole Pine. Craig W. Benkman, S75.
Sex-Ratio Selection in Species with Helpers at the Nest: The Repayment Model Revisited. Walter D. Koenig and Jeffrey R. Walters, 124.
Sex Roles Are Not Always Reversed When the Potential Reproductive Rate Is Higher in Females. Noboru Okuda, 540.
Spatial and Temporal Patterns in Coevolving Plant and Pathogen Associations. J. J. Burdon and P. H. Thrall, S15.
Spatial Moment Equations for Plant Competition: Understanding Spatial Strategies and the Advantages of Short Dispersal. Benjamin M. Bolker and Stephen W. Pacala, 575.
Specific Hypotheses on the Geographic Mosaic of Coevolution. John N. Thompson, S1.
Sperm Digestion and Reciprocal Sperm Transfer Can Drive Hermaphrodite Sex Allocation to Equality. Jaco M. Greeff and Nico K. Michiels, 421.
Sperm Displacement in the Yellow Dung Fly, *Scatophaga stercoraria*: An Investigation of Male and Female Processes. L. W. Simmons, G. A. Parker, and P. Stockley, 302.

The Temporal Coherence of Zooplankton Population Abundances in Neighboring North-Temperate Lakes. James A. Rusak, Norman D. Yan, Keith M. Somers, and Donald J. McQueen, 46.
Temporal Variation in Danger Drives Antipredator Behavior: The Predation Risk Allocation Hypothesis. Steven L. Lima and Peter A. Bednekoff, 649.
Timing of Estrus in Fallow Deer Is Adjusted to the Age of Available Mates. Petr E. Komers, Björn Birgersson, and Kenneth Ekvall, 431.
Top-Down Control of Cyanobacteria: A Theoretical Analysis. Alessandra Gragnani, Marten Scheffer, and Sergio Rinaldi, 59.
